

NAME(S) _____
ASTRONOMY 20

CLASS DAY/TIME _____
LLOYD

MINI-ESSAY #2
KEPLER'S LAWS
ORBITAL MOTION

- 1) Explain Kepler's three laws of planetary motion in terms that a 10-year-old would understand.

[over]

- 2) Write a paragraph explaining why the Moon doesn't fall to the Earth even though the Earth's gravity is constantly pulling on it.

[29 February 2016]
